

### Upcoming Changes to VIVA Medicare Plus's Formulary

VIVA Medicare Plus may add or remove drugs from our formulary during the year. If we remove drugs from our formulary, [or] add prior authorization, quantity limits and/or step therapy restrictions on a drug [and/or move a drug at a higher cost-sharing tier], we will notify you of the change at least 60 days before the date that the change becomes effective. However, if the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, in which case we will immediately remove the drug from our formulary.

The table below outlines upcoming changes to our formulary that may impact you.

Name of Affected Drug	Description of Change	Reason for Change	Alternative Drug	Alternative Drug Copay*	Effective Date
VESANOID CAPS 10 MG	Deletion of Drug from Formulary	Manufacturer Discontinuation	TRETINOIN CAPS 10 MG	TIER 4	Until Supplies Run Out
